Sir,

Subject —

I have the honor to state that the President, Town Municipal Council, Tiptur, reports that at the time of audit of the accounts of the Municipality in March 1937, the free grant of sites measuring roughly 562' x 212' to Veerasaiva Gurukulasrama at the place was objected to, as it had not been sanctioned by Government From the Presidents report and the connected records enclosed herewith it is seen that site No.1 and 2 in the western extension measuring about 1½ acres was granted to the institution by the Council according to their resolution dated 30-10-1924. Again, in their resolution dated 2-9-1932 another site measuring 200 x 162, in front of the one sanctioned before was also granted free of cost to the same institution by the Council. It is reported that the total area now occupied by the institution under both the above grants is 193' x 535' according to the measurements taken by the Assessing Officer.

2. The President Town Municipal Council, Tiptur was requested to report as to why sanction of Government was not obtained under Section 40 (2) of the Town Municipal Regulation of 1906. He has since reported that as the grant was made so far back as 1924 and as it was for a philanthrophic purpose, sanction of Government may be obtained. The Municipal Council have also in their meeting dated 28th September 1937 resolved to the same effect. In the circumstances, I request that sanction of Government to the above free grants may be kindly accorded

With reference to your Memo No A6 C 2534/37-38 dated 11-3-1938 enquiring as to why proper previous sanction was not obtained for the free grant of certain sites made to the Veerasaiva Gurukulasrama in 1924 and 1932, I beg to state that the grant without any consideration seems to have been made in view of the philonthropic purposes of the institution as the matter relates to very distant periods and is for a charitable public purpose, I request you to kindly recommend the case to Government to accord sanction thereto as a special case Necessary precautions will be taken to prevent the repetition of such irregularities in future
